

## Project Management

Manage, implement, and track projects, like APQP, NPI, and EH&S. **You and your employee assignments one click away on main screen.** Describe the project, identify tasks, document task completion, and record all necessary steps required to complete each project.

## REDUCE COSTS - ANALYZE TRENDS - IMPROVE PROCESS

You have all heard of or felt some of these project management complaints, including lack of proper skills on the project team, especially when managed with binders and spreadsheets

- **Poor communication**
- **Failure to set clear goals and objectives**
- **Unworkable deadlines**

**Bridge the gap** to ensure that stakeholders and responsible parties are on the same page, openly communicating, and collaborating from project onset to completion

**Assign leadership** with designated team leaders and qualified personnel to handle each phase of a project

**Set project milestones** to always stay on schedule from start to finish, estimate costs, and time spent at each interval. Finish ahead of schedule, and under budget

## Project Management

### BENEFITS

Organizing work in a fast-paced environment can be priceless.

**Communication:** Projects often fail due to ineffective communication between stakeholders and project teams. Bringing people together collaboratively is key to successful project completion.

**Money:** A failed project is a costly project. A project management application that's capable of providing oversight to leadership and stakeholders dramatically increases the odds of reward while mitigating risk.

**Time:** Save you time so you can apply yourself to higher-value activities. If you were able to save between 15 to 30 minutes per day, how much more could you accomplish?

**80% WASTE**  
REDUCTION (LEAN)

**80% VARIATION**  
REDUCTION (6 SIGMA)

Harrington Group International has developed a comprehensive set of management and technical processes based on industry quality standards. The consistency achieved throughout the application of these processes provides the foundation for predictable performance and a reputation for delivering high quality products, on time, and on budget.
